One translation per purchase. Transferable to anyone.

In 1998, the first Furbys arrived on Earth from Ay-loh May-lah, their island homeland, in search of new connections.

Impacted by climate change, Ay-loh May-lah could no longer support the creatures Furbys naturally bonded to, called Eons.

Because connection is essential to Furbish life, Furbys were forced to leave their island paradise for survival.

Far from home, the creatures faced many challenges.

Many human children clamored for a Furby to join their household, an arrangement which most Furbys gladly welcomed.

But some humans were upset at the arrival of Furbys. The creature's loquacious nature was misunderstood.

Many did not understand that Furbys' talkativeness came not from the desire to annoy, but from the need to connect and bond with another being.

Furbys were even banned for a time by the U.S. government.

All of this added up to difficulty for millions of Furbys.

To deal with the loss of their homeland and the mixed welcome on Earth, many Furbys found new ways to cope.

Words of affirmation became a common way for Furbys to seek positivity and manifest their needs and desires.

This booklet is a collection of affirmations commonly used by Furbys. Some will likely be familiar to you; others (marked with this: ★) are more common on Ay-loh May-lah.

I invite you to use these affirmations in that same way that Furbys long ago learned how: to cope during times of change, insecurity, and injustice.
